

Feadship *Kassandra* joins resale portfolio

Hoofddorp, 7 September 2026 – Feadship Resale has welcomed 47.50-metre *Kassandra* (#756) to its sales portfolio. Delivered in 1989 and comprehensively refitted in 2022, this classic Feadship is offered for sale in joint central agency with Dimitris Kalafatis of Greek brokerage house Flagship Yachts, combining Feadship's knowledge of the yacht with the brokerage house's expertise and established presence in the Mediterranean.

Kassandra accommodates twelve guests in seven staterooms, including a full-beam master stateroom on the main deck. Her full-displacement steel hull and long-range cruising capability are complemented by outdoor guest areas across four decks. A comprehensive refit in 2022 included major technical upgrades as well as extensive work to her interior, after which she was successfully introduced to the charter market.

Attractively positioned within her segment, *Kassandra* also offers a future owner the opportunity to make further changes to suit their individual requirements, with Feadship expertise available to support her continued development.

The addition of *Kassandra* further expands the portfolio of Feadship Resale, established to bring Feadship knowledge and expertise to the sale and acquisition of pre-owned Feadships. With access to the history and technical background of the fleet, Feadship Resale ensures a continuum of Feadship knowledge and expertise as a yacht passes from one owner to the next.

Since its introduction in 2024, Feadship Resale has built a growing track record of transactions involving Feadships from across the fleet. Recent sales include *Somnium*, *Samadhi* and *Graycliffs*, reflecting the value of keeping Feadship knowledge and expertise connected to a yacht as she passes from one owner to the next.

Kassandra is available for viewings by appointment in Greece.
