

Feadship announces first sales through Feadship Resale

Feadship Resale service off to a strong start with two landmark sales

Hoofddorp, 16 May 2025 – Feadship has confirmed the first two successful sales through its recently established service, *Feadship Resale*. These early milestones include the 75.75-metre *ONE* (2025), co-listed with Edmiston and sold with Burgess acting as the buying broker, and the 83.50-metre *Savannah* (2015), co-listed with Edmiston.

This achievement affirms what many have long suspected: Feadship's unrivalled technical expertise, focus on Feadship only, and access to the yacht's history, bring a distinctive advantage to the brokerage process.

"For years, owners have asked us to help sell their yachts," said Arjen van Elk of Feadship Resale. "We always directed them to brokers, but now we can offer something far more comprehensive. We know the yachts inside out – we built them." This, he added, makes Feadship a valuable partner to all brokers we collaborate with.

Quietly introduced at the end of 2024, Feadship Resale quickly struck a chord with long-time clients. Immediately, several owners returned directly to Feadship, placing their trust in the people who know their yachts best.

Feadship Resale is a service offered exclusively on the request of the client. Collaboration remains at the heart of the approach, with Feadship working alongside trusted brokerage houses to provide owners and buyers with seamless, informed support.

With these two major sales now complete, the Resale team is ready to assist prospective Feadship buyers and sellers who value Feadship's dedication and knowledge.

Feadship Resale now represents six yachts in its growing portfolio, with the 57.60-metre *W* as the most recent addition to the Feadship Resale fleet.
